## Maxwell, Hammer & Smith

A superb rock harmony band whose members have all been in professional bands, and 'trodden the boards' as they say.

The band cover songs from Queen, to Eagles, to Focus and Boston, Kansas Steeley Dan, and are noted for the difficult songs they attempt as a three piece - many bands wouldn't try. As Lemonrock Editor Mac MacLaren pointed out in his review, the band have 'pin point harmonies'. The band members have played all over the world and put all their musical knowledge and experience into their show. Three very talented guys who still love their music and love to entertain, you won't be disappointed.
